POINTS FOR SMOKERS

Ways to Use Tobacco Without Injuring Your Health.

If you will observe the following rules you may smoke as much as you like without any harm.

In the first place, smoke a good cigar. In the second place, never light a cigar the second time. The other rules are never to stay in a cloud of smoke and never draw the end of a cigar.

The first rule to smoke a good cigar, of course, means to smoke a Wadsworth Bros. Cigar, for which Kendrick & Co. are the local agents in Barre.

"Although the Chico cigar is made with a long clear Havana filler," says Mr. Kendrick of the above firm, "and is equal in flavor, fragrance and all qualities that go to make a good smoke to any of the ten and fifteen-cent brands, yet it sells for only five cents."

We buy direct from the maker, thus saving any middleman's profit, and in the Chico give our customers the best smoke for their money that we have ever seen.

"If there is anyone in Barre that has not yet tried the Chico, we want him to come in today and get one."

LODGE BUSY ON RATE BILL

He Takes Important Part In Discussion

PRESERVE REGULARITY

Opposes Amendment Offered by Dryden

—The Year 1906 Is Yet Too Far Away as the Date for the Plan by Elkins.

Washington, May 10.—Senator Lodge took an active part in the Senate debate yesterday on the several amendments having for their object the preventing of railroads engaged in interstate commerce from manufacturing, mining coal or coke, or producing other commodities except for their own use. Senator Lodge voted against the amendment to the Elkins amendment introduced by Senator Dryden of New Jersey fixing 1909 as the date when the railroads should be required to dispose of such holdings. "That is altogether too long a time to wait," said Senator Lodge, "and I shall vote against it." Senator Dryden's amendment was adopted by 41 to 29, on a yeas and nays vote.

Later in the discussion precipitated by the motion of Senator Hopkins to refer all amendments on this subject to a committee, Senator Lodge in opposing this motion on the ground that it was out of order, stated his position more clearly: "I am anxious," he said, "to have this subject referred to a committee. But that can be done in an orderly manner. I cannot vote to do this in a manner contrary to the practice of the Senate. An amendment has no standing, except as an amendment to a bill. This bill is here, not in committee. No bill is before that committee referring to this subject. I want to see the whole subject referred to a committee with the distinct understanding that the bill providing for the separation of the railroads from the ownership of coal lands shall be reported before the end of this session and passed. Let a bill or a resolution be introduced covering this subject."

FELL DOWN ONCE MORE

Boston Americans Again Drop Jo Athletics

BOTH TEAMS HIT HARD

But Visitors Were Aided by Misplays

—Chicago Almost at Head of National League Again Won Yesterday.

Boston, May 10.—In a heavy-hitting game Boston fell down before Philadelphia yesterday afternoon by the score of 9 to 6, making its seventh straight defeat. Both Young and Plank were touched up for many hits, but the visitors were aided by misplays of the home fielders. Capt. Collins was back in the game after a short lay-off with a cold.

Each team scored one in the first inning. Philadelphia getting hers when Young shot Arramburster in the ribs. Brothers sacrificed him and Davis brought him across the plate with a bunt single to center field. Collins got on first when Seibert dropped his long fly and was sacrificed on the play. On Plank's out at first Collins went to third. When Stahl went out at first Collins went in.

Both teams played in good form from then up to the fifth inning. In that inning the Athletics got after "Y" Young in a bunch. Murphy led off with a single and was sacrificed by Cross. On Plank's out Murphy went to third and when Plank went the ball into center field he came in. Arramburster got a pass and Brothers singled, scoring Plank. After Brothers had stolen second, Lord singled to right field and Arramburster and Brothers failed. Young muffed the throw in and Lord took second, where he died, as Davis filed on Stahl.

A little consecutive hitting, aided by an error by the visitors, gave Boston two runs in the sixth. After Young had gone out, Collins and Plank combined, followed by Stahl with a two-bagger, which sent Collins in. When Murphy fumbled Seibert's grounder, Plank scored. Godwin batted for Freeman and fanned and Grimshaw filed out.

Philadelphia more than made up for that little spurt, however, in the next inning, scoring four times on four hits and two runs. Graham's single, Young's triple and Plank's single gave the home team a little encouragement of two scores in the seventh, and three singles by Godwin, Ferris and Graham gave them their final tally in the ninth.

TO SUMMON LEGISLATURE

Moran Begins With House of Representatives

75 ARE TO APPEAR TODAY

The Charges of Bribery Have Grown

Out of the Defeat of the Anti-Bucket Shop Bill.

Boston, May 10.—District Attorney Moran has announced his intention of summoning before him the entire membership of the Massachusetts legislature in connection with charges of bribery recently made over the defeat of the anti-bucket shop bill in the house of representatives. Already summonses have been issued for 75 members of the general court and the district attorney says that the others will be called before him at a later date. Three members of the house have already testified before the grand jury which is now in session on the bucket shop bill bribery charge.

The anti-bucket shop bill was passed by the state senate, but was defeated in the house. The measure was killed after one of the most bitter contests in the history of the general court.

After the final action had been taken Representative Simon Swig of Taunton made a statement in the corridor, in which it is alleged, he charged that he had been offered a bribe of \$100 in consideration of casting his vote against the bucket shop bill.

Representative Leonard of Springfield was also said to have made a statement of a similar nature.

The matter was brought to the attention of District Attorney Moran and he at once summoned Representative Swig before him. The legislator is said to have denied to Mr. Moran any knowledge of bribe offering.

Later the district attorney officially summoned Representatives Swig and Leonard and Representative Toland of South Boston, and these three legislators, together with a legislative agent named Bartlett testified before the Suffolk county grand jury on Monday shortly after that body came in for its regular May session.

District Attorney Moran has been conducting his investigation of the bribery charges and gave public notice that he would go to the extreme and call the entire legislature before the grand jury, if such he thought necessary in order to sift the charges in a thorough and satisfactory manner.

TRIES TO HANG HIMSELF.

Schidlofski, Wife Slaying, Makes Two Suicide Attempts.

Boston, May 10.—John Schidlofski, sentenced to death in the electric chair in the week beginning July 8 for the murder of his wife last summer in the Arlington Golf Club grounds, has made two ineffectual attempts to hang himself within the past few days in his cell in the East Cambridge Jail.

The condemned man made ropes out of his bed clothing, formed nooses and tied it to the cell grating. In each case he was discovered by the attendants in time to prevent him from carrying out his design.

The criminal cries of the doomed man have vexed Charles Louis Tucker, and yesterday he told his mother that they prevented him from sleeping.

The man grows weaker and more incoherent in his appearance every day. He only eats when he is forced to do so. He pays no attention to his personal appearance, and his hair and beard are now great masses of matted hair.

THE CAUSE.

Pneumonia is developed from a cold, but all colds do not develop into Pneumonia.

If a cold is neglected, the chances are Pneumonia will follow.

The best way to prevent Pneumonia is to keep your system in such a condition that it will repel a cold at its first approach.

Nothing will put your system in such a perfect condition as MAGEE'S EMULSION. It contains just the elements needed. It is a pure Cod Liver Oil combined with Malt and Hypophosphites—a food, a medicine and a tonic combined. There is no alcohol in it to give temporary stimulation, but it benefits you from the start. It makes you strong by building up the tissues and enriching the blood. Strong healthy people are better able to withstand the trying winter weather.

Don't neglect your health. Start taking Magee's Emulsion to-day; delays are dangerous.

Three Men Believed to Have Drowned as Result of Strike.

Cleveland, May 10.—An indirect result of the "longshoremen's strike, which has paralyzed lake traffic, was the sinking yesterday of the schooner Algerie, in Lake Erie. The boat went down in a terrible gale sweeping Lake Erie, and it is believed that Capt. Stewart and two sailors have been drowned.

The large Iron Queen is in distress a mile off the harbor. The crew of eight men have been saved.

So severe is the gale that waves are dashing over the breakwater and many craft are in danger.
